

Lenguajes y Autómatas I

TAREA 19

1. Depurar cada una de las siguientes gramáticas Libres del contexto y encontrar una gramática equivalente libre de anomalías:

a) $S \rightarrow AB$

$$A \rightarrow aA \mid abB \mid aCa$$

$$B \rightarrow bA \mid BB \mid \varepsilon$$

$$C \rightarrow \varepsilon$$

$$D \rightarrow dB \mid BCB$$

b) $S \rightarrow aB$

$$A \rightarrow bcCCC \mid dA$$

$$B \rightarrow aB \mid \varepsilon$$

$$C \rightarrow fA$$

$$D \rightarrow Dgh$$

c) $S \rightarrow A \mid AA \mid AAA$

$$A \rightarrow ABa \mid ACa \mid a$$

$$B \rightarrow ABa \mid Ab \mid \varepsilon$$

$$C \rightarrow Cab \mid CC$$

$$D \rightarrow CD \mid Cd \mid CEa$$

$$E \rightarrow b$$

d) $S \rightarrow D \mid aE \mid bCD$

$$A \rightarrow Cd \mid CSa \mid bB$$

$$B \rightarrow aB \mid bA$$

$$C \rightarrow Cab \mid cB$$

$$D \rightarrow aA \mid Ca \mid b$$

$$E \rightarrow BEa \mid DBb \mid \varepsilon$$

e) $S \rightarrow B \mid aAc \mid SbA$

$$A \rightarrow abA \mid EB \mid \varepsilon$$

$$B \rightarrow Cb \mid Aa \mid Db \mid AC$$

$$C \rightarrow Aab \mid bA \mid \varepsilon$$

f) $S \rightarrow BA \mid aAc \mid SbA$

$$A \rightarrow abB \mid AS$$

$$B \rightarrow Cb \mid Aa \mid b \mid AC$$

$$C \rightarrow Aab \mid bA \mid \varepsilon$$

g) $S \rightarrow a \mid aA \mid B \mid C$

$$A \rightarrow aB \mid \varepsilon$$

$$B \rightarrow Aa$$

$$C \rightarrow bCD$$

$$D \rightarrow ccc$$

h) $S \rightarrow aAb \mid cEB \mid CE$

$$A \rightarrow dBE \mid eeC$$

$$B \rightarrow ff \mid D$$

$$C \rightarrow gFB \mid ae$$

$$D \rightarrow h$$

Lenguajes y Autómatas I

i) $S \rightarrow Cd \mid CSb \mid bEA$

$A \rightarrow S \mid aE \mid aCD$

$B \rightarrow aB \mid bSC$

$C \rightarrow Cab \mid aB$

$D \rightarrow aA \mid Cb \mid b$

$E \rightarrow BEa \mid DBb \mid \varepsilon$

j) $S \rightarrow AC \mid bC \mid aAF$

$A \rightarrow Sb \mid Db \mid a$

$B \rightarrow bB \mid Eb$

$C \rightarrow SC \mid Ba \mid \varepsilon$

$D \rightarrow bEB \mid aE$

$E \rightarrow Bba \mid Ae$

k) $S \rightarrow AS \mid AC \mid \varepsilon$

$A \rightarrow aD \mid bS \mid b$

$B \rightarrow bD \mid BA \mid bE$

$C \rightarrow D \mid aC \mid \varepsilon$

$D \rightarrow bCB \mid AD$

l) $S \rightarrow bAD \mid aA$

$A \rightarrow aB \mid bS \mid b \mid \varepsilon$

$B \rightarrow bC \mid aED$

$C \rightarrow bB \mid aC \mid E$

$D \rightarrow bA \mid AS \mid \varepsilon$

m) $S \rightarrow bAS \mid AB$

$A \rightarrow aD \mid bS \mid b \mid \varepsilon$

$B \rightarrow bA \mid aEB \mid \varepsilon$

$C \rightarrow bD \mid aC \mid EA$

$D \rightarrow bCB \mid aAD$

n) $S \rightarrow BD \mid aAc \mid SbA$

$A \rightarrow abB \mid AS \mid \varepsilon$

$B \rightarrow Cb \mid Aa \mid b \mid AC$

$C \rightarrow Aab \mid bA$

o) $S \rightarrow D \mid aED \mid bCD$

$A \rightarrow Cd \mid CSa \mid bB$

$B \rightarrow aB \mid bA$

$C \rightarrow Cab \mid cB$

$D \rightarrow aA \mid Ea \mid b$

$E \rightarrow Ea \mid DBb \mid \varepsilon$

p) $S \rightarrow DB \mid aE \mid bCD$

$A \rightarrow Cd \mid CSa \mid bA$

$B \rightarrow aB \mid bS \mid \varepsilon$

$C \rightarrow Cab \mid cAE$

$D \rightarrow aA \mid Ca \mid b$

$E \rightarrow BEa \mid Dab$
